

ADIS @ AAMAS.06

- Program -

09:00 – Opening

09:10 - 10:30 – Keynote - Munindar Singh, “Business Process Adaptations via Protocols”

10:30 -11:00 – Coffee Break

11:00 -12:00 – Session 1 - Contemporary Agent-Based Information Systems
Chair: Aditya Ghose

A Content-Based Information Sharing Multi-Agent System
M. Mari, A. Poggi, M. Tomaiuolo, P. Turci

ToothAgent: A MultiAgent System for Virtual Communities Support
V. Bryl, P. Giorgini, S. Fante

12:00 -12:30 – Session 2 - Modelling Approaches
Chair: Alessandro Garcia

Towards Agent-Based Scenario Development for Strategic Decision Support
M. Mensonides, B. Huisman, V. Dignum

12:30 -14:00 – Lunch

14:00 - 15:00 – Session 2 - Modelling Approaches (Continuation)
Chair: Alessandro Garcia

Using MAS-ML Dynamic Diagrams to Model MAS Behavioral Properties
V. Silva, R. Choren, C. Lucena

A Statistical Approach for Evaluating and Assembling Agent-Oriented Software Engineering Methodologies
A.-H. Elamy, B. Far

15:00 - 15:30 – Session 3 - Law-governed Interaction Techniques
Chair: Aditya Ghose

An Approach for Contextual Regulations in Open MAS
C. Felicissimo, C. Lucena, J.-P. Briot, R. Choren

15:30 - 16:00 – Coffee Break

16:00 - 16:30 – Session 3 - Law-governed Interaction Techniques (Continuation)
Chair: Aditya Ghose

Interaction Laws Verification Using Knowledge-based Reasoning
G. Carvalho, A. Brandao, R. Paes, C. Lucena

16:30 - 17:30 – Panel - “Will Agent-Oriented Reshape IS Theory and Practice?”

16:30 - 17:30 – Closing Remarks
